

SecuRanger (Model SRS-04) Crack+ [Latest 2022]

Do you need to monitor your commercial property with video surveillance but can't afford to invest in expensive CCTV camera or digital surveillance system? Do you want to monitor and view video from your PC at your own home or office with no restriction in location and with no need to hire or purchase professional video editing software? Have you ever wished you can adjust the camera to make it fit to your office wall or a balcony? If you have the above questions, SecuRanger will be a perfect solution for you. With SecuRanger (Model SRS-04) Download With Full Crack, you can setup video surveillance with multiple cameras, monitor video with either 4 split screen, single camera view, looping cameras sequentially, or monitor video from IP Cam / CCTV camera, digital camera, PTZ speed dome or web camera and even record video with audio. You can setup multiple scheduled recordings. Trimble Director is a portable, handheld program that turns your PC into a GPS device. It enables you to quickly and easily find locations, return to previously viewed places, and load and save GPS points to a personal geodatabase. All this activity is done without the user having to leave their PC. With a variety of features, including dynamic navigation, real-time reporting, contacts, mapping, report generation and editing, and program startup, you can set it up quickly and easily. You can easily get directions, mark locations, and perform a variety of actions—including importing and exporting data, saving, and managing contacts and mapping data. In addition to its straightforward interface, the program is packed with useful features. You can find a location, return to a location, and export and load points. The built-in map and contacts features of the program will be most useful to you. With the map feature, you can display locations, mark them with markers, and send them to your contacts. With SplitView, you can present two apps side by side in one window. Orx navigation: Navigate Windows by simply hovering over items on the desktop, similar to our current "point and click" Windows interface. Go to: This is the "instant" menu, as though you'd hit a button on the mouse.

SplitView navigation: Navigate around the windows by simply dragging a window to the desktop. Trimble Director is a handheld, portable program that turns your PC into a GPS device. It enables you to quickly and easily find locations, return to previously viewed places

SecuRanger (Model SRS-04) Free For PC

☑ IP camera resolution is 640x480 or above ☑ Not support HD camera IP connection ☑ Not support web browser on iPhone, Android or PDA ☑ Not support webcam microphone with sound card ☑ Operating System for 64-bit/win32: Windows XP, Server 2003, Vista, 7, 8, Server 2008, Server 2008 R2, Server 2012, Windows 7 SP1 ☑ Only support 3 simultaneous connections SecuRanger Technical Support: ☑ Free 90-day trial period ☑ Technical support via email ☑ Remote support ☑ Complimentary telephone support SecuRanger Key Features: ☑ Large number of low cost and easy-to-install IP camera devices with powerful camera performance ☑ Easy camera management, such as connection and configuration ☑ Support various video formats ☑ Flexible power supply for new PC, Laptop, Home Network and office with different power supply voltage ☑ Easy to install and upgrade ☑ Supports UPnP and NAT-Traverse routers, popular for setting up Internet connection in home ☑ Easy to control the live camera view ☑ Easy to manage all video recording functions including preview and stop video ☑ Ability to assign tags for saving time-stamp to video clips ☑ Ability to achieve live video recording and event recording by pressing the Enter key ☑ Ability to add or remove the number of connection ☑ Support FTP, Telnet and SNMP for managing camera network ☑ Support Internet access via three different links, such as WiFi, Wired Internet and Lan/WAN ☑ Quickly installed and installed easily ☑ Configured by a single file, do not need to configure by using manual ways, which is convenient and easy for use ☑ Support to PC (remote access), PDA, Smart Phone ☑ Support Fast forward function for browsing long video file ☑ Support to large file playback and display function ☑ Support to play video clip by different functions ☑ Support to play video by play, pause, fast forward and backward ☑ Support to play video by hot key ☑ Ability to playback 3 independent video sources at the same time ☑ Support to edit video file ☑ Support to play back video by

SecuRanger (Model SRS-04) [Win/Mac] 2022

A complete PC-based digital video surveillance system. It has comprehensive digital video surveillance functions for recording video and audio based on motion detection and/or pre-defined schedule. It also can display live video and sound from a camera. You can view the video and listen to the sound on a computer monitor, TV or TV screen. It has a strong remote connection and video streaming capability via Internet, and this will enable remote viewing from another computer, PDA and mobile phone.

- Event detection and notification
- Record Search and Playback
- Record Database Management
- Handy Operational Functions
- Log file for operations, events and remote connections
- Able to restart computer at a certain time
- Able to start SecuRanger when starting Windows
- Notify IP change by e-mail
- IP address should be within SecuRanger lan
- Force wireless connection for SecuRanger to continue to run

Features:

- Camera devices Supported
- PTZ speed dome camera
- Webcam
- Support 4 video channels
- Display video in 4 split screens / single camera view / full screen view / looping cameras sequentially
- Show/hide live video, turn on/off live sound
- Control the viewing angle and focus of PTZ speed dome camera on PTZ control panel or on video screen
- Take a snapshot of video frame with time stamp
- Display current status of video source, audio source, event detection and video recording
- Display camera name and current date/time information
- Allow password protection for operation
- Pause detection for temporarily turning the motion detection function off
- Remote monitoring
- Include a built-in web server for displaying live video on Internet browser
- Allow remote viewing video on Remote programs at other PCs, PDAs and mobile phones
- Adjustable frame rate, video quality and video dimension for smoothing remote video transmission
- Remotely control PTZ speed dome camera for pan/tilt movement and zooming
- Allow remote connection by ID for automatically tracking dynamic IP change
- Automatically display connection information for remote viewing, including computer IP address, router IP address and LAN/WAN type
- Cap

What's New in the?

Camera:

- CCTV camera with video grabber
- PTZ speed dome camera
- Webcam
- Secure Digital Cameras
- Support 4 video channels
- Surveillance camera control panel
- Webcam for security monitoring
- Possibility of monitoring 4 cameras simultaneously
- Possibility of 3D view of video stream in any direction
- Possibility of selecting which view in 4 split-screen monitors to be shown
- Support automatic recording and playback

Monitoring:

- Display video in 4 split screens / single camera view / full screen view / looping cameras sequentially
- Show/hide live video, turn on/off live sound
- Control the viewing angle and focus of PTZ speed dome camera on PTZ control panel or on video screen
- Take a snapshot of video frame with time stamp
- Display current status of video source, audio source, event detection and video recording
- Display camera name and current date/time information
- Allow password protection for operation
- Pause detection for temporarily turning the motion detection function off
- Control the maximum number of simultaneous connected cameras

Remote Monitoring:

- Include a built-in web server for displaying live video on Internet browser
- Allow remote viewing video on Remote programs at other PCs, PDAs and mobile phones
- Adjustable frame rate, video quality and video dimension for smoothing remote video transmission
- Remotely control PTZ speed dome camera for pan/tilt movement and zooming
- Allow remote connection by ID for automatically tracking dynamic IP change
- Automatically display connection information for remote viewing, including computer IP address, router IP address and LAN/WAN type
