Pokki is a web service that let you access your favourite tasks and events anywhere using your smartphone, computer or tablet. You also have access to the tasks and events of your friends on the web or through your mobile app. The best part is that you don't

need a browser to access it, you just need Pokki. What is it? Pokki is a service that allows you to create tasks in an online database. You can then connect to the service through a desktop client (Pokki.com) or via an iOS or Android app. The service is free. What can it do? The service lets you access your tasks, to-do lists and events from anywhere. It's very convenient if you're out of home or you don't have a computer handy. The service also offers several features including a reminder system, a dynamic calendar, a guestbook and a badge system. The service also offers several other options, such as access to the work of friends and to your tasks via the web. What are the strengths? The service is free so there's no need to

pay even if you want to use it more than once. What can it be used for? Pokki can be used to track your tasks and events. It can also be used for scheduling, but this is not the main use for
