interacted, the characters' banter. But I didn't see anything like the following through in the canon up until that point. I found Star Trek S7 to be not only an enjoyable series, but also captivating. There was such a tremendous rise of interest from the show's second and third seasons,
that by the end, it had exceeded all expectations I had for the show up to that point. Where could I have seen that from other shows and franchises? What made this show a series of bff6bb2d33
