What's new:

First and foremost, we at Square Enix are creating a NEW fantasy action RPG. We decided that this time, we would make the story and experience completely new, and we wanted you to play as someone that would become a major character that has a great deal to say. Although we are making a promising game in an opinion-based world, please show your thought to us.

Only with the source code can we give you the experience of actual play, so we will reveal all the information about the game when it becomes playable in June 2018. We hope to be able to meet your expectation, and we are very happy to have your interest!
